

# Survival of the Greenest

## Regular Members

**This category shall be composed of licensed firms or organizations engaged in nursery and garden centers, landscape construction, turf producers, greenhouse production, maintenance, irrigation contracting, professional pesticide use, government agencies wanting voting rights, or any other related green industry in Utah.**

**This year will be greener.**

It's a new year. And the scientists at BioGrass will continue to develop seed-mixes that produce beautiful sod which uses less and less water, less fertilizer and fewer pesticides.

**BIOGRASS®**
